## **Short Description**

Max Engine Power 36.3kW (49hp)

Max Dig Depth 3.08m

Bucket capacity 0.3m<sup>3</sup>

## **Description**

Whatever the job, you can be safe in the knowledge that a JCB 1CXT mini loader offers superior productivity. We've installed a powerful Tier 3 engine in this compact agile machine, together with the loading and digging capabilities to tackle the toughest jobs.

Optional extending dipper available, which can dig to depths of 3.08m, 36% deeper than its nearest rival and reach up to 4m at ground level

Superb tractive effort provided by the high-drive tracks, offers great pushing power

14% increase in bucket capacity and 30% increase in ground clearance compared to the 1CX backhoe loader

Stabilisers now only required for the most arduous digging applications, due to the increased stability offered by the tracks

Parallel lifts whilst both raising and lowering as standard (optional on a conventional compact track loader)
