Description

There are many reasons to choose the JCB 456 front loader. It's productive, efficient, easy to maintain and extremely durable.

Its 8.3 litre 6-cylinder Cummins engine is Stage 2 compliant and produces 153 kW and 994 Nm.

Of course all JCB front-end loaders are designed to get the most from every drop of fuel. On the 456, there's a load sensing hydraulic system with a variable displacement pump, and a variable speed cooling fan, all of which consume power only when required. There's also premium componentry, like a Cummins Engine and an all-ZF driveline.
