

# 516-40 TELEHANDLER

**Brand: JCB**

**Call for Price: 08 89473490**

## **Short Description**

Max Engine Power 35kW

Max Lift Capacity 1600kg

Max Lift Height 4m

## **Description**

JCB's compact telehandler, the 516-40 is also one of the most innovative telehandlers in the world. Put simply, it's a skid steer, wheeled loading shovel and forklift all in one compact telehandler package.

This small telehandler achieves its extraordinary versatility because of JCB's revolutionary offset single-spine chassis. Core strength is under the boom and the chassis wraps around the cab, meaning the 516-40 cab can be mounted lower than normal. That means the whole machine sits lower (1.8m) for improved manoeuvrability and easier, safer cab access. Crucially, we haven't had to reduce the cab size or performance to achieve these benefits.
