

# 520-40 TELEHANDLER

**Brand: JCB**

**Call for Price: 08 89473490**

## **Short Description**

Max Engine Power 36kW

Max Lift Capacity 1650kg

Max Lift Height 4m

## **Description**

JCB's small telehandler, the 520-40 is another compact, manoeuvrable telescopic handler. It has a longer footprint than the 516-40 compact telehandler, but boasts improved lifting capacity and lift capacity at reach.

4 equal sized wheels improve tractive effort for excellent loader performance, while soft ground flotation and ground clearance are first class.

For added versatility, high utilisation and extra investment value, we offer a large attachments range.

Permanent 4-wheel steer, together with a compact machine size, means an exceptionally tight turning circle for great manoeuvrability and handling in small spaces.

Of course, being a JCB telescopic handler, residuals are strong – as the world's number 1 telescopic handlers, our Loadalls are always in demand and therefore valuable.
