Brand: JCB

Call for Price: 08 89473490

Short Description

Max Engine Power 100kW

Max Lift Capacity 2600kg

Max Lift Height 5.6m

Description

Compact and powerful with low weight, the JCB 526-56 Agri telehandler features a turbocharged EcoMAX four-cylinder engine. A torque converter and four-speed synchro transmission encourage rapid take-up of power.

4 equal sized wheels improve tractive effort for excellent loader performance, while soft ground flotation and ground clearance are first class (even more so when large 24" wheels are fitted).

Permanent 4-wheel steer and 4WD, together with a compact machine size, means an exceptionally tight turning circle for great manoeuvrability and handling in small yards.

Of course, being a JCB telehandler, residuals are strong – as the world's number 1 telescopic handlers, our Agri Loadalls are always in demand and therefore valuable.
