## **Description**

The JCB 535-125 Hi-Viz is a major step forward in telehandler visibility, particularly the three-quarter view to the rear of the machine. It's a full-sized 3-stage Loadall with a huge reach and a highly efficient Dieselmix engine.

This is achieved via a lowered boom pivot and a reduced-size (though very strong) boom section.

The result is a 10% increase in all-round visibility, making the machine easier and faster to operate.

To cap it off, there's a compact reduced-overhang chassis for superb steering and manoeuvrability.
