

560-80 AGRI TELEHANDLER

Brand: JCB

Call for Price: 08 89473490

Short Description

Max Engine Power 108kW

Max Lift Capacity 5500kg

Max Lift Height 7.9m

Description

The JCB 560-80 Agri PLUS is a hugely efficient EcoMAX-powered telehandler. In fact it's the most powerful telescopic handler we've ever built, geared for maximum capacity, power and productivity.

In response to feedback, we fitted a powerful engine, fitted a Z-bar linkage (forming our toughest-ever telescopic boom) and, as a result, achieved huge breakout force.

Then there's our new fast-flow oil return, which produces fast cycle times by speeding up boom lowering and retraction. For added versatility, high utilisation and extra investment value, we offer a large attachments range too.

Of course, being a JCB telehandler, residuals are strong – as the world's number 1 telescopic handler manufacturer, our Agri Loadalls are always in demand and therefore valuable.

But 560-80 Agri PLUS telescopic loaders are not just about doing more; they're about doing more for less. So we've invested in new technology and features to drive down operating

costs by reducing fuel consumption.
