

8 - 20 KVA GENERATORS

Brand: JCB

Call for Price: 08 89473490

Short Description

Engine Yanmar

Engine Emissions Fuel Optimised

Frequency 50/60Hz

Description

When you need reliable power and a compact solution, JCB's 8-20 kVA models offer a versatile power generator.

The 8–20 kVA generators are built around industry recognised internal componentry. Powered by the 3 and 4 cylinder water-cooled Yanmar engine, this range offers superior performance and maximum reliability. Each generator is built to the highest standard just the same as our larger generators.
