**Brand:** Linde

**Call for Price:** 08 89473490

## Short Description

1.4 - 2.0 tonnes capacity

Electric Motor

Ideal for Storage

## Description

The Linde Series 1120, R14-R20G Electric Reach Trucks offer outstanding comfort and functionality. The unique, resiliently mounted work station with an air suspension comfort seat is fully adjustable to the operator's personal preferences including an integral, adjustable control console incorporating all operating controls. Linde Load Control offers precise, effortless fingertip control of all mast movements. The High Vision, armoured glass, overhead guard top panel is available as an option and is standard with the ambient cabin. The chassis has been designed and built for maximum strength and durability. It's heavy-duty design and components enhance the inherent low centre of gravity for optimum stability and high residual capacities, while Linde Curve Assist provides safe cornering.
