

# V10 ELECTRIC ORDER PICKERS

**Brand:** Linde

**Call for Price:** 08 89473490

## Short Description

1.0 tonnes capacity

Electric Motor

Ideal for Order Picking

## Description

There are two versions available, the model V 10-01 comes with fixed forks welded to the operator platform, for working with walk on pallets and the model V 10-02 comes with supplementary lift on operator platform and forks welded to fork carriage. The pallet can be raised to most convenient working level for picking. With optimum matching of lift carriage minimises dead space to allow full utilisation of pallet surface area. The cab is suspension-mounted and has a floor designed to absorb shock and vibration with lighting to illuminate racks, load and/or cab. The cab is also fitted with storage compartments, pen holders and space for bottles, cans or tools, radio preparation, fans, preparation for data terminals and scanners.
