

# N20VI/VLI ELECTRIC ORDER PICKERS

**Brand:** Linde

**Call for Price:** 08 89473490

## Short Description

2.0 tonnes capacity

Electric Motor

Ideal for Order Picking

## Description

There are two versions available of the V08 with a compact chassis width of 800 mm.

The model N20Vi, order picker with initial lift and rising platform and the model N20VLi, order picker with initial lift, rising platform, an additional mast and OptiLift® system for ergonomic lay at operator's height. The platform & pallet can be raised to the most convenient working level for picking and comes with a wide access of 432 mm and low step-in height (135 mm).

The OptiLift® system to provide fully proportional lifting as well as quiet operation. Lowering can be controlled by a foot switch & ensures soft landing of the forks that protects the load when lowering.
