

# P250 ELECTRIC TOW TRACTORS

**Brand:** Linde

**Call for Price:** 08 89473490

## Short Description

25.0 tonnes capacity

Electric Motor

Ideal for Transporting

## Description

The P250 comes in a long and short wheelbase version with robot welded heavy gauge steel plate for maximum torsional resistance and rigidity. It also provides a high impact protection for the operator and components with a low profile chassis for all-round visibility, ergonomic automotive pedal and control layout, spacious leg and headroom and storage space for documents, pens and a beverage holder. The excellent all-round visibility creates a clear view for rear tow coupling.
