

# T20-T24SP ELECTRIC TRANSPORTING

**Brand:** Linde

**Call for Price:** 08 89473490

## Short Description

2.0 - 2.4 tonnes capacity

Electric Motor

Ideal for Transporting

## Description

The electronically controlled hydraulic suspension active castor wheels provide superb stability and traction when transporting pallet loads with automatic braking on releasing the travel switch and well controllable countercurrent braking. The electromagnetic braking is initiated by the emergency stop button that acts on the drive motor, proportional to the load carried. With an ideal 45° driving position it provides an excellent view of the environment driving in either forward or reverse. Utmost safety in every situation with exceptional stability, especially when cornering.
